

# The Five-Star Table

patent pending

The ultimate table for restaurants and clubs using linens for premium dining

## Features

- Edge radii optimized to eliminate sharp corners while still allowing the ideal drape of linen.
- The perfect 'feel' when linen covered exudes class and sophistication. Solid, yet slightly soft.
- Will not absorb liquid or moisture. Smooth, food-grade surface layer provides effortless and sanitary cleanup.
- Years of trouble-free service - While not necessary, tops can be cleaned with kitchen cleaners or even pressure washed.
- Base attachment screws will not loosen or strip their holes over time. A properly attached top will not become loose from the base.

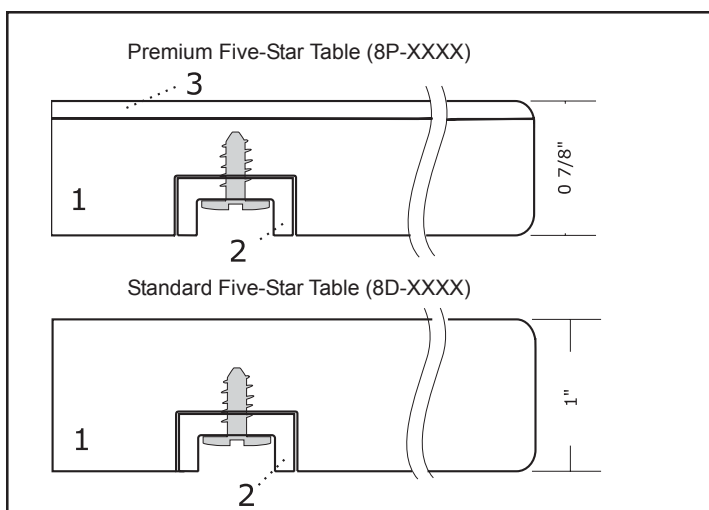

Premium Five-Star Table

- Solid
- Durable
- Sanitary

The 'feel' and sound-deadening needed for the perfect dining experience are yours with quality linens and HCI's Five-Star Table. These features compliment your fine crystal and china and are so critical that the acclaimed Mobil Travel Guide specifically mentions them as key to the coveted four and five-star ratings.

HCI's Five-Star Table compliment the other elements of your dining room ambiance and provide durability, sanitary properties and cost-effectiveness unavailable with vinyl padded tables.

## Cut-away Construction Views

1. Composite plastic board.
2. Aluminum channel reinforcement.
3. Surface layer of food-grade high density polyethylene.
